## PHILOSOPHY OF FARMER SCHOOL

We, the faculty of Farmer School, believe that all students should be given equal opportunity to an education that will develop attitudes, understandings, and skills which will help them become active citizens of their community, nation, and world.

Specifically, our major objectives are to:

1. Educate the child to meet the needs of a changing world.
2. Help the child develop an attitude of curiosity and create a desire to seek knowledge for himself.
3. Stimulate industriousness and self-discipline.
4. Provide a firm foundation for higher learning by teaching basic skills at the child's own level of ability, as well as by enrichment.
5. Create a classroom atmosphere in which success, security, understanding, mutual respect, and every opportunity to attain worth educational goals are all pervading.

## PRINCIPAL'S MESSAGE

It gives me great pleasure to congratulate this Senior Class for having reached this important level of achievement. You have been a real fine group and I have enjoyed my association with you. My life seems richer for having had this association. I believe you have enjoyed your years of association with this school and I certainly hope that your life is richer because of this association.

You are now about to enter another era in your own span of life. Your high school days are almost history. Many of the things you have been doing have been done collectively as a class. From now on you will be facing the challenges of life as individuals. Decisions and accomplishments will be up to you as individuals, not as a class.

Certainly one decision you will have to make is how much you will further your education. We must realize that the point has been reached in our society where further education and training are necessary if accomplishments are to be made. I want to challenge you, individually, to be included among those people who wish to accomplish great things.

I shall not try to enumerate the other challenges and decisions which you will face. Your commencement speakers will do a good job in this respect. I hope you will listen to these speakers and apply the things which they say to your lives.

My feeling toward students is that they are the "light of the world". I think that the challenge of our schools is to kindle, or ignite, this light and to start it burning brightly. Then it is up to you to keep it burning. A familiar quotation from the Bible is to let your light so shine among men that they will see your good works and glorify your father which is in Heaven. I hope you will adopt this quotation as one of the guiding forces in facing your future.

I shall miss your presence at Farmer High School, but I rejoice with you in your having reached this goal. I certainly wish for all of you a good and successful life.

# THE THINGS

## PHYSICAL EDUCATION

The Physical Education Department at Farmer High School strives to develop through Physical Education activities and Health an appreciation for the rules and laws of exercise and healthful living in a complex society.

The athletic program is designed for those who are highly skilled in basketball, baseball, and track.

## SOCIAL STUDIES DEPARTMENT

1. Civics provides the background for the development of informed and responsible democratic citizenship and for the awareness of citizenship in a contemporary world.

2. Government offers each student a thorough and practical understanding of local, state, and national governments.

3. Economics offers a study of the vocabulary and terms necessary for the understanding of our economic system. A study of past economic theories and their relationship to present trends is made.

4. Sociology. Here we study the development of basic social institutions in primitive societies; the evolution of social institution from primitive form to the forms existent in current societies.

5. World Geography is the study of geographical factors as they have influenced man's life in the past and in the present, including land forms, bodies of water, climate and natural resources.

6. U. S. History and World History offers a careful analysis of the past and present experiences of the U. S. and the world--their merits and their mistakes. By a careful study of the mistakes of the past, we hope to build a better tomorrow.

# WE ARE . . .

## COMMERCIAL DEPARTMENT

Business Education is built upon and contributes to general education. It is broad in scope and concerned with the development of knowledges, understandings, attitudes, appreciations, and skills which will enable the individual to understand and thus better participate in the functions of American Business.

Typing I is fast becoming an essential skill for all high school graduates--those planning to further their education as well as those who will be seeking employment. For this reason we encourage all students to Typing I. Office Practice, a senior subject, builds upon these skills learned in Typing I, and introduces the student to office techniques and practices. The subject is primarily for those desiring to enter the clerical branch of business or major in business in college.

Business Math and Basic Business are foundation courses for the general manipulation of business terminology and mathematical skills.

High School Physics is applied mathematics. The technological aspect of our world today demands more experts in this field of science.

Progress in Science surely will be one of the dominant fields of progress for our twentieth century--new fabrics in chemistry, space craft in Physics and revolution in conquest of disease in Biology, are examples.

## SCIENCE DEPARTMENT

# THE THINGS

LIBRARY

The library is the information center of the school, providing materials needed to supplement textbooks and to supply recreational reading. The goals of the library are to help students use the resources of the library confidently and effectively, to give students a rich environment for learning, and to encourage a love of reading.

## GUIDANCE

The guidance program provides counseling for pupils who have special problems which interfere with their success in school. The program also provides means by which all pupils may obtain help in planning the work which they will do or the higher education which they will seek. Our ultimate goal is to have each pupil choose for himself that which will utilize his interests and abilities to the fullest.

## MATHEMATICS DEPARTMENT

In the Mathematics Department in the Farmer High School we offer a variety of courses in an effort to meet the needs of all the students.

For the freshman class we offer General Mathematics and a course in Algebra I. General Mathematics is a complete review of all operations in Arithmetic. Algebra I is usually for college preparatory students.

General Mathematics is followed by a course in Business Mathematics. Algebra I is followed by Geometry for students in the sophomore class.

Algebra II is offered the third year for students wishing to continue in their pursuit of Mathematics.

For the seniors who have had Algebra I, Geometry, and Algebra II we offer Advanced Algebra and Trigonometry as further preparation for college.

The family is an institution basic to all cultures. American educators recognize the importance of a satisfying family life and have set as one of the goals of education the preparation for personal and family living.

The Home Economics program at Farmer High School places much emphasis on this goal. Opportunities are provided for students to actively participate in solving personal and family problems in relationships, management, of time and resources, providing adequate and attractive housing, growth and development of children, providing adequate nutrition through well-planned, carefully-prepared, attractively-served meals, selecting and construction becoming clothing which contributes to health, developing skills in all phases of homemaking.

Emphasis is also placed on creating and appreciating beauty, working together, establishing values, making wise choices, and assuming responsibilities as a member of a community.

Farmer is offering the regular courses in Homemaking Education which enables a girl, or boy, who so desires, to study and practice this philosophy for three years. In addition a class in Education for Family Living is offered to boys and girls on the Senior level who wish to study preparation for marriage and homemaking.

## BRICKLAYING

This year Bricklaying was added to our school curriculum. We were fortunate to acquire the skilled talents of Mr. Melvin Hunt. His instruction has enabled many of our students to learn the skill of this vocation.

This training will enable some of our students to move into a highly-paid job that there is a great demand for.

## AIMS AND PURPOSES OF VOCATIONAL AGRICULTURE

The program of studies shall be designed to serve occupations: (1) that involve knowledge and skills in agriculture, (2) that are related to the functions of producing, processing, and distributing agricultural products, and to related services, and (3) that require competencies in one or more of the primary competencies in one or more of the primary areas of plant science, soil science, animal science, farm management, agricultural mechanization, and agricultural leadership.

## CLASS SONG

Climb every mountain,  
Cross every sea,  
These are our ambitions,  
This-our destiny.

All we remember,  
Classmates and fun,  
And we know the good-bys,  
To these have just begun.

Tho we must leave,  
We will never forget,  
The good times we've had,  
And the people we've met.

Look ever onward,  
High goals achieve,  
Heart-aches and memories,  
Behind us we leave.

(To the tune of CLIMB EVERY MOUNTAIN)

Amy Thornburg, Songwriter

## CLASS POEM

Here we are as seniors, how the time has passed!  
Suddenly we realize, this year will be our last.  
Oh, can't we stop the hand of time, and bring back once again,  
These last four years we've spent in fun and friendships that began?

Our places that we filled in school, in ballgames, and in fun,  
Will soon be filled by others, for now our task is done.  
We thank each one who did his part in trying to affix  
The bonds and friendships of this class, THE CLASS OF '66.

Artie Poole, Class Poet

In August 1962, we the class of 1966 entered High School. We were very eager to investigate our new surroundings; however, we were somewhat shy of the thought that we were "Green Freshmen". Our advisors were Miss Frances Evans, Mr. Eli Smith, and Mr. Talmadge Williams. We elected our class officers: Pat Rozier, President; Carter Sink, Vice President; Brenda J. Hunt, Secretary; Toni Steere, Treasurer. It was mostly work our Freshman year, but we found time for a few outside activities.

In 1963 we became Sophomores. Our class officers were: Carter Sink, President; Gary Tesh, Vice President; Randy Walker, Secretary; Steve Brower, Treasurer; Fred Hill, Reporter. Mrs. Mary Watson and Mr. Charles Williard were our advisors. Those receiving the honor of being tapped in the Beta Club were Gloria Sexton, Jayne Yates, Janice Kearns, Judy Poole, Carol Swaney, Brenda J. Hunt, Carter Sink and Gary Tesh.

In the fall of 1964 we returned as Juniors. We were very much aware of the responsibilities ahead of us. Our advisors were Miss Shirley Metcalfe and Mrs. Mary Watson. Our class officers were Gary Tesh, President; Carter Sink, Vice President; Artie Poole, Secretary; Steve Brower, Treasurer; Amy Thornburg and Fred Hill, Reporters. Those tapped into the Beta Club were Steve Brower and Randy Walker. We began plans on the Junior-Senior Banquet early. On April 30, it became a reality. Another great occasion was the ordering of our class rings, which we were to receive when we became Seniors. As a part of graduation the Juniors had a candle-light ceremony in honor of the Seniors and sang our class song to them. We were sorry to see the Seniors leave, but looked forward to the time when we would replace them.

We returned as Seniors in September 1965, with great tasks before us. We were very proud of our class rings because we felt we had earned them. Our class officers were Randy Walker, President; Janet Tysinger, Vice President; Judy Ridge, Secretary; Scott Bunting, Treasurer; Jimmy McElreath, Reporter. Our advisors were Mrs. Joyce Nichols and Mr. Robert Allen. Our initial task was that of publishing the "Far Echoes". The annual staff worked many hard hours to make what we think will be the best edition of our yearbook.

For twelve years we have been a part of Farmer and have shared many joys and sorrows. We are saddened by the thought of leaving Dear 'Ole Farmer High, but we must face the future with courage and high hopes. To the teachers, parents, and friends who have so graciously lent us a helping hand, we wish to express our sincerest gratitude. As we part each in his own direction, we are fully aware of our indebtedness to the school. We shall strive to repay this debt by service to our Lord and mankind.

## SCHOOL REPORTERS

Vickie Hill

Jimmy McElreath

Reporting is a means of communication between the school and the general public. We try to inform everyone of the various activities which take place in school. We report the meetings of various clubs, the activities of each class and extra-curricular activities such as basketball and baseball plus the scholastic achievements of various members of the student body. We have found that our school news is a very challenging and rewarding task.

### ATHLETICS AT FARMER HIGH SCHOOL

Our High School life is so correlated that many students are given the opportunity to excel in various ways. The program of athletics of Farmer High School is one of the strongest promotions of school spirit and

school loyalty. Through this medium of self-expression, the hard work and achievement of the various athletic teams here at Farmer show the segilience and capabilities known only to the boys and girls such as these.

### SPORTS AT FARMER HIGH SCHOOL

Sports . . . a word really close in so many ways to school spirit . . . cheerleaders encourage "All for Farmer to stand up and holler" . . . Basketball delights the students, faculty, and community . . . Brower drives for a beautiful two pointer . . . McDowell, Sink grab key rebounds . . . Tension mounts as the score gets closer . . . Parker, Lanier sink two baskets . . . one point behind . . . Parker at free throw line . . . hits one, the second bounces off the front of the rim . . . McDowell grabs rebound and scores . . . one point ahead, three seconds left . . . a shot--amiss . . . WE WIN . . .

Then comes baseball . . . As usual, excitement, enjoyment, spirit, sports.

# CLASS PROPHECY

The other day I sat down and watched T. V. While I was watching it, I fell asleep. During this sleep I had a most unusual dream. The dream went like this.

It began with a reunion of our senior class. I think it was ten years after our graduation. Almost everyone was present. All except Carter Sink, who had a big basketball game that night with the Boston Celtics. He plays with the St. Louis Hawks.

The Russell twins, Pallie and Callie, own Asheboro Coach Company now and have the best business in the state.

Donna Cagle is now singing on T. V. She sang on the Ed Sullivan show last week.

Bob Balderson was running in the Monte Carlos Grand Prix last week when his Ferrari blew the engine. Lawrence Moffitt and Randy Walker are his main pit crew members. Kenneth Hill is still running his '56 Chevy. Only one trouble. The hood has been down so long that Kenneth can't get it up himself now.

Larry Hunt finally got a hit record. He's now playing with the Moving Rocks. Mickey Causey is their manager.

Jayne Yates now has her own chicken farm. She sells eggs to her father.

Artie Poole has taken over her father's garage and is now the chief mechanic for everyone.

Brenda Cagle is the owner of New Hope Welding Shop. Great service.

Gloria Sexton has taken over for Mr. Kruger, teaching Physics and Chemistry.

Jimmy McElreath is teaching now also. His subject is Agriculture, taking over for Mr. Adams at Farmer.

Steve Brower is in the hospital; he just broke his leg this time. Nothing to worry about, it's a common thing.

Herman Hogan has opened a deer reservation in New Hope.

Donald Freeman is now chief brick mason for Melvin Hunt's Masonry. Jerry Snider is the co-chief.

Brenda and Janet Hunt have really stuck together. They and their husbands now all live together in one house.

Barbara Kearns is now a beautician down at Farmer, owning her own shop. Janice Kearns is co-owner.

Lauren McDowell is the owner of a large plantation. He is the leading farmer in the South.

Fred Hill is Vice-President of Burlington Mills after just twelve years employment there.

Dalton Yates is known as the Casanova of the 20th century. He now has another convertible.

Dale Thornburg is the secretary for the President of the United States, Paul Miller.

John Sharp is the head of foreign relations since he doesn't know anything about it.

Scott Bunting has not married yet. He is still looking for that girl in South Carolina. He can't seem to find her.

Judy Ridge and Roy Cranford are married and live in New York where Roy is pitching for the Yankees and Judy is the bat girl.

Wayne McDowell inherited a great deal of money and is taking it easy on the French Rivera.

Gayle Surratt is happily married and runs a beauty school in Hollywood.

Dianne Holland is traveling over the country buying cars for her father. She has four or five herself.

Donald Hoover is the head of the prison department in Jackson's Creek.

Jerry Laughlin went to the Olympics in '72 and won the 100 yard dash.

Carol Swaney has the largest sawmill in the world. She runs it by herself. Sometimes Tawana Walker helps her out when she can find time out from her acting in Hollywood.

Susan Shortleeve is traveling from dragstrip to dragstrip looking for Kenneth. He never comes home.

Judy Poole and Linda Small are still going to Asheboro football games looking for a fellow.

Judy Fagge is one of the leading fashion models in America. She makes \$150 a day.

Virginia Hunt and Judy Smith own the Smith & Hunt Cosmetic factory located between Tabernacle and Cedar Grove.

Amy Thornburg is the coach of the University of Cedar Grove's girls' basketball team.

Ruby and Richard Miller have taken over the state government. Richard is the governor and Ruby is his secretary.

Janet Tysinger has the largest collection of mules in the world. Her chief mule, however, is still Teeter.

Wayne Goins is now the largest cattle farmer in the world. He has over 20,000 head of cattle.

George Armstrong is now the world's light-weight champion. He has beaten the world's heavy-weight champion once.

Wayne Snider is a comedian on a nighttime T. V. show.

Billy McDowell is now a radio announcer since he talks so much. He is announcing on station WFLS in Farmer.

Bobby Varner is a great country and western singer. He already has two big hits.

Just at this big moment in my dream, I awoke. I found that I had fallen off the couch and hurt my arm. Oh! I wonder if it is broken!
